To Whom It May Concern:

In January of 2009 I met with Dan Novotny from Novotny Contracting Services. Dan offered to provide a demo of a high performance floor finish called NeverStrip Gloss. NCS prepared the floors in one classroom and a section of hallway and applied the NeverStrip Gloss to the floors. I was impressed with the quality of workmanship, attention to detail, and professionalism of Dan and his crew. The floors looked great after they were completed with a nice crystal clear gloss.

The only maintenance necessary was either wet mopping or auto scrubbing of the areas with the NeverStrip coating. We evaluated the condition of the floors over the remainder of the 2009 school year and the areas of our floors that had the NeverStrip finish retained their appearance as promised. We also used NCS to restore our recycled rubber floors in our fitness and activity areas. Again they did great work at a fair price and the floors turned out perfect.

We decided to expand our evaluation of the NeverStrip floor finish to other areas of the high school including the main entrance lobby, and in the kitchen areas. Just as in the initial demo NCS's team did a fantastic job and the floors turned out great. We chose to have the NO-SLIP option in our kitchen areas. The floors are now safer and much easier to keep clean. We found this to be an excellent solution for our kitchen areas to improve the safety and clean ability of the quarry tile floors.

Here we are over two years later and our floors that have NeverStrip floor finish still look great. The floors have held up and retained a consistent, clean, glossy appearance and the only maintenance necessary has been simply regular cleaning. I would strongly recommend NCS for any floor maintenance projects. I would also recommend the NeverStrip floor coating. The NeverStrip Gloss has proven to be a smart alternative to the old way of maintaining floors.

Sincerely,

Lee R. Anzicek C.F.D.
