Bill Anoa, Maintenance Manager, contacted NeverStrip Floor Coatings during 2012 looking for a “better floor care solution than wax” for 7,000 sq. feet of VCT.

Bill said the following during a recent phone conversation with NeverStrip:

- Sudbury Bible Church and Christian Academy is a “hopping place” with lots of parishioners, church activities and school activities and 150 active students.
- Five years ago, a NeverStrip Authorized Dealer removed floor finish (wax) and applied one coat of NeverStrip Gloss.
- “It still had a high shine after 5-years with only routine cleaning but we felt a recoat would be best.”
- Richard Smith and crew from AMPM Facility Services, a NeverStrip Authorized Dealer, prepped the floor and applied one application of NeverStrip Gloss in one day!
- “Richard and his crew were outstanding.”
- “The floor is So Bright. It is Awesome. We figure the NeverStrip coating on our VCT saves us **51 days** of work every Summer!!! We save a \$1,200 or more every year. We do not need to move furniture, strip floor finish, apply wax, burnish the wax and move the furniture back. **In fact, we have not done any of these tasks for 5 Summers.**”
- Bill went on to say: “we no longer have stripper working through our shoes and we no longer are sliding all over the place with stripper on floor with all of the inherent safety issues. NeverStrip is easy to clean and scuff marks come right off--without tennis balls.
- Bill summed it all up by saying: “I want to express how much the school and church loved the job that Richard’s guys did here this summer. We were wowed! AMPM’s professionalism was outstanding.”
- “I recommend the NeverStrip product and Richard and his team to everyone that asks and will gladly give my testimonial for it.”
